Migros Group remains on a growth trajectory and expands its online business significantly

In 2021, the Migros Group generated consolidated sales of CHF 28'932 billion (adjusted, +2.3% year-on-year) and remains the undisputed market leader in Swiss retail. Group profit amounted to CHF 668 million.
The Covid-19 pandemic led to further restrictions for the public in 2021. The Migros Group, which covers many everyday needs with its products and services, felt the effects again and suffered further losses in the travel, leisure and catering segments. However, results in the core business of retail were encouraging and the Migros Group managed to exceed the high levels of the previous year, particularly in the food and non-food e-commerce platforms and the convenience, discount and health segments.

This success is due to the dedication of our employees, who all pulled together and worked hard each day to keep our customers happy. We would like to thank them wholeheartedly for their outstanding efforts.

Undisputed leader in Swiss retail
Thanks to its regional roots and its focus on strategically important segments, the Migros Group is in good shape. In the reporting year, it confirmed its leading position as the undisputed number one in the Swiss retail sector in both the in-store and online channels.

The retail sales of all Migros companies (adjusted) increased by 2.3% to CHF 24.744 billion. Migros extended its leading market position in the e-commerce business. With its online platforms, which include Migros Online and Digitec Galaxus, it is the undisputed number one in Swiss online retail. It also increased regional diversity with new products and additional locations, and invested in sustainability and new offerings for its customers.

Adjusted for the sale of shareholdings and real estate in the previous year, Group sales were up 2.3% to CHF 28,932 billion year-on-year. The adjustment largely represents revenues and income from the sale of Globus, the food services wholesaler Saviva and the Glatt shopping centre in 2020. Online retail sales across all divisions of the Migros Group grew by 15.5% to CHF 3,242 billion. Major contributors to this achievement were Migros Online (+24.5%) and Digitec Galaxus (+17.7%).

Even greater commitment to society and sustainability
Migros has been organised as a cooperative for 80 years and makes numerous contributions to strengthening social cohesion in Switzerland. Since 2021, the Migros Group’s social initiatives have been combined and communicated under one name: "Migros Commitment". This includes the Migros Pioneer Fund, the Migros Aid Fund and Migros Culture Percentage, which has been incorporated in the statutes since 1957. In the reporting year, projects in the areas of community, culture, education, health, technology, ethics, climate and resources were supported with a total of CHF 160 million (2020: CHF 159 million).

Migros further increased its commitment to sustainability in 2021. It adopted ambitious climate targets that are compatible with the Paris Agreement. As part of this, all Migros Group companies set themselves milestone targets aimed at achieving net zero by 2050 at the latest. This means that all greenhouse gas emissions will be balanced out. The targets were adopted within the framework of the widely recognised Science Based Targets Initiative (SBTi). At the same time, Migros launched new services and projects to simplify sustainable shopping. These include M-Check, which rates Migros’ own-brand products in terms of animal welfare and climate compatibility. Migros also significantly expanded its range of sustainably produced food and the selection of products that help people to live a sustainable lifestyle.
1.481 billion
The Migros Group's total investments amounted to CHF 1.481 billion in 2021.

Investments
Migros again invested in important product innovations. For example, the number of products under the own brand V-Love (plant-based meat and dairy substitute products) was doubled by 60 to 130.

The Migros Group's total investments amounted to CHF 1.481 billion in 2021. The ten Cooperatives invested around CHF 726 million in increasing their regional presence and customer proximity, and in modernising their branches. Some of the funds also went to Migros Industrie, which invested in modern production facilities and thereby made an important contribution towards strengthening Switzerland as a centre of industry.

668 million
The Migros Group's profit amounted to CHF 668 million in 2021.

Solid financial performance
The Migros Group's financial result was heavily affected by unusual items in the previous year. Earnings before interest and taxes (EBIT) were CHF 800 million in the reporting year. Group profit amounted to CHF 668 million. On an adjusted basis, EBIT was up by 11.4% and Group profit by 20.4% (previous year: CHF 555 million before portfolio adjustments). Equity increased by CHF 654 million to CHF 21.142 billion. The Migros Group's strong financial position enables it to make the shopping experience even more attractive for its customers with innovations and to adapt quickly to changes in the market.

2021 in Detail

Cooperative Retailing
The ten regional Migros Cooperatives generated sales of CHF 14.664 billion in Switzerland, not quite matching the outstanding performance of the previous year. The renewed Covid restrictions made themselves felt, in particular in the leisure/fitness facilities and the catering segment. Including the business of Migros Online, the supermarkets and hypermarkets generated sales of CHF 12.674 billion (–0.4%). The Cooperatives' sales abroad remained stable at CHF 1.499 billion (+0.1%). In the supermarkets, customers benefited from price decreases of approximately CHF 190 million or 1.7% on average.

Commerce
Adjusted for the sale of Globus and Swisstherm, the strategic business unit Commerce recorded an 8.5% rise in sales to CHF 8.182 billion. The online retailer Digitec Galaxus grew its sales by 17.7% to CHF 2.054 billion and further increased its market share. The sales of Ex Libris also rose considerably, by 10.3% to CHF 134 million. Denner generated sales of CHF 3.808 billion (+1.2%) in the competitive discount market. Migrolino continued its success from the previous year with a 4.3% increase in sales to CHF 747 million.

Migros Industrie
In 2021, Migros Industrie again felt the effects of the pandemic on its domestic sales, particularly in the catering sector. However, it was able to largely offset these declines with growth in sales to customers abroad. Adjusted for the companies sold, sales remained stable at CHF 5.748 billion (–0.2%).

Health
The health segment again proved to be a driver of growth. The Medbase Group recorded significant growth in all three of its business units – medicines, pharmacies and dentistry. Group sales increased by 28.8% to CHF 490 million. zahnarztzentrum.ch was consolidated for the full year for the first time in 2021.

Hotelplan Group
Travel continued to be heavily restricted by the effects of the Covid-19 pandemic. Hotelplan achieved net sales of CHF 645 million (–11.9%). Customers made far fewer bookings and travelled much less than in the previous year, particularly during the winter season. The pandemic situation eased somewhat during the summer months, which resulted in more bookings compared with the same period in the previous year. For several weeks, bookings received by Hotelplan Suisse, vtours and Interhome Group even exceeded the levels seen in 2019 before the pandemic.
**Migros Bank**
Migros Bank saw significant growth in its core business in 2021. Customer deposits increased by 9.4% to CHF 42.2 billion, and mortgage volume was up by 6.5%. There was also a considerable increase in asset management mandates again. After a 23.2% rise in the 2020 financial year, the volume increased by a further 53%. Operating income across all divisions was up 14% to CHF 652 million.

**Migros as an employer**
Migros employed 97'541 people in 2021 (2020: 99'155). This slight decrease is due to the sale of Globus and Saviva AG and the decline in the travel business. At the same time, the Migros Group created more than a thousand new jobs, mainly in online retail and in the health and fitness sector, and continues to be the largest private employer in Switzerland.

**Outlook**
The war in Ukraine and the global shortage of raw materials are causing great uncertainty and driving up costs, and will continue to pose a challenge in the current financial year. Migros is in good shape and well equipped to deal with future challenges and developments. It will continue to offer its customers the best value for money. It will be a reliable employer and fulfil its responsibility to supply the Swiss population with great dependability and commitment. The Migros Group aims to continue to set the benchmark for social commitment in Switzerland.

Ursula Nold,  
Chairwoman FMC  

Fabrice Zumbrunnen,  
Chief Executive Officer FMC
Facts and figures for the Migros Group’s 2021 financial year

Net zero

CO₂: net zero by 2050 is the ambitious climate target that the Migros Group set itself in 2021.

-51.6%

was the reduction in operations-related greenhouse gas emissions by the Migros Group in 2021 in comparison with the reference year 2019. The target period lasts from 2020 to 2030.

400

More than 400 rail wagons transport goods for Migros every day.

188

+3% increase in organic food sales in Cooperative Retailing (incl. Alnatura) in comparison with the previous year.

was the reduction in operations-related energy consumption by the Migros Group in 2021 in comparison with the reference year 2019. The target period lasts from 2020 to 2030.

265 million Number of PET drinks bottles collected in Cooperative Retailing in 2021.

818 Increase in the number of certified vegan products.

2018 2019 2020 2021

\(^1\) Adjustment as from 2018: Cooperations inclusive domestic and foreign branches
Cooperative Retailing

In 2021, the Migros Group expanded its online business, increased regional diversity, sold more sustainable products and reduced its prices. The consolidated sales of Cooperative Retailing remained stable at CHF 17.719 billion.

The ten regional Migros Cooperatives including subsidiaries generated sales of CHF 14.865 billion in Switzerland, not quite matching the outstanding performance of the previous year. The supermarkets and hypermarkets posted sales of CHF 12.344 billion (-0.9%); including the business of Migros Online, sales amounted to CHF 12.644 billion (-0.4%). Sales abroad came in at CHF 1.499 billion (+0.1%).

1.7%
average price reduction in the supermarkets and hypermarkets

Prices reduced
Migros reduced its prices in the supermarkets and hypermarkets by 1.7% on average. It thereby continued to pursue its strategy of offering its customers the best value for money. The retailer was able to finance these price cuts by continuously reducing costs.

The lower prices, combined with factors such as changes in consumer behaviour, meant that the average basket value was lower than in the previous year. Customers made smaller purchases than in 2021, but they visited the branches more often. This is reflected in a 3.6% increase in footfall to around 333 million purchases.

Focus on sustainability and regional products
Migros also increased regional diversity in 2021. For example, the ten regional Cooperatives now sell around 10'000 products bearing the label "Aus der Region. Für die Region" (From the region. For the region). This represents an increase of around 500 products. The range of sustainably produced food was also expanded in the reporting year. With the introduction of IP-Suisse grass-fed milk, Migros has become the first retailer in Switzerland to sell only sustainably produced milk. It also made improvements in the area of animal welfare. Since 2021, all eggs sold by Migros are free-range.

In order to simplify sustainable shopping, Migros launched M-Check in 2021. Unique in the Swiss retail sector, it evaluates Migros' own brand products in terms of animal welfare and climate compatibility.

Migros also introduced innovations in meat and milk substitute products. The range of V-Love own-brand products with plant-based ingredients, which was launched in the previous year, has been expanded by 57 products to more than 110.

Migros' sales of products with ecological or social added value amounted to CHF 3.404 billion (+0.7%). Following strong growth in the previous year, organic food sales increased by a further 3.0% to CHF 1.250 billion.

→ Sustainable development
Specialist markets record further growth
In 2021, the specialist markets Micasa, SportXX, melectronics, Do it + Garden and OBI were transferred to Migros Fachmarkt AG, which defines the strategic orientation of the formats and provides all central activities. The specialist markets maintained their momentum of the previous year even in the challenging environment of the pandemic. Sales rose by 0.9% to CHF 1.730 billion, while prices decreased by 2.2%. In-store business was the main contributor to this increase.

Migros Online extends leading position
The online supermarket Migros Online further extended its leading position in the Swiss market during the reporting year. Sales increased by 24.5% to a record CHF 330 million. The number of delivered orders again rose significantly by 38.0%.

Branch network expanded
Migros opened 18 new branches, including several local M and MM locations, an OBI specialist market and five Alnatura supermarkets. Nine locations were closed, most of which were independent catering businesses. The Migros sales network comprised a total of 735 locations (previous year: 726). The sales area of the supermarkets and hypermarkets, the specialist markets and the restaurants and takeaways increased by a net 1.5% to 1'437'315 m².

Commerce

The Commerce Department is responsible for Migros’ Convenience and Discount food retail sub-segments. It also drives online growth with Digitec Galaxus and Ex Libris. All companies increased their market share in 2021.

Due to the successful transformation of the retail portfolio over the past few years, with a particular focus on Convenience, Discount and Online Retail, the Commerce Department achieved a further surge in growth in the reporting year. The companies Digitec Galaxus and Ex Libris again responded flexibly to strong growth in online demand and significantly extended their positions as online market leaders. The discounter Denner also increased its market share, while migrolino and Migrol made significant strides forward in the Convenience sub-segment.

At CHF 162 million, earnings before interest and taxes (EBIT) exceeded the previous year’s posted result of CHF 127 million by a considerable margin.

Long-term profitable growth in Online Retail

Due to the portfolio optimisation measures, the Migros Group’s dependency on in-store non-food business was greatly reduced. It is now driving growth in the online business.

Digitec Galaxus increased its platform sales by 16% to CHF 2'122 million. The company grew much faster than its competitors and gained market share in all areas. By intensifying its activities in the German market, Galaxus Germany generated platform sales of more than EUR 100 million and thereby reached an important milestone in the development of the business. The Digitec Galaxus group’s net sales came in at CHF 2'054 million, compared with CHF 1'745 million in the previous year.

Ex Libris completed its successful transformation from brick-and-mortar retailer to online retailer. Due to continued strong online growth and the positive development of in-store business, sales increased by 10.3% to CHF 134 million. Ex Libris has thus again extended its position as Switzerland’s leading online book retailer.

Strong performance in Discount and Convenience

Denner posted sales of CHF 3'808 million (+1.2%) in a generally declining food retail market. Due to its strengths as a local discounter with a dense network of branches, Denner was able to capitalise on changes in consumer behaviour during the Covid-19 pandemic. In addition, it also managed to retain the customers acquired in the previous year. With a net increase of twelve branches, the branch network grew to 850 locations, further increasing proximity to customers.

Migrolino increased its sales by 4.3% to CHF 747 million. Footfall in the branches remained at the high levels of the previous year. The wholesale business also saw significant growth, due to the acquisition of new business partners. migrolino AG expanded its network of migrolino, mio by migrolino and gooods shops to 337 (previous year: 323).
Migrol recorded a significant rise in sales to CHF 1'450 million (+18.3%) in the reporting year, after a fall in revenues in the previous year, due in part to lower fuel and heating oil prices and reduced use of private vehicles. Sales volumes in the petrol station business in 2021 did not quite recover to pre-pandemic levels.

Migros Industrie

In 2021, Migros Industrie generated sales of CHF 5,748 billion (−3.8%) in a challenging market environment. The pandemic-related decline in Switzerland and the effects of the portfolio adjustments were largely cushioned by growth abroad.

With its industrial companies, Migros is one of the biggest producers of own-brand products. At the same time, it also supplies many third-party customers in Switzerland and abroad with its products. In 2021, domestic sales and food services in particular were hit hard by the pandemic. However, this was largely offset by growth in sales to customers abroad.

Collaboration within the Migros Group was further enhanced with the project “Winning together”. Representatives of the Cooperatives, the Federation of Migros Cooperatives and Migros Industrie committed to end-to-end optimisation across the board with the aim of improving Migros’ market position over the long term. Migros Industrie is supporting this drive with the introduction of a cost-plus pricing model.

Despite the challenging conditions caused by the pandemic, Migros Industrie was able to continue fulfilling its mission thanks to the extraordinary dedication of its employees.

Active portfolio adjustment in Switzerland
In the Swiss market (retailing and bulk consumer business), Migros Industrie separated from the catering wholesaler Saviva in the previous year. In 2021, this led to a year-on-year decrease in domestic sales of CHF 310 million (−6.1%) across all channels in Switzerland. Despite the challenging conditions caused by the pandemic, Migros Industrie was able to continue fulfilling its mission thanks to the extraordinary dedication of its employees.

International market position maintained
The international business grew by an encouraging CHF 83 million (+9.4%) in the reporting year. This was driven mainly by the export business of Delica and Mifroma, and by the growth of the Mibelle Group’s foreign subsidiaries in Korea (Dr. G) and France (Ondal).

Investment in Switzerland as a centre of industry
In 2021, Migros Industrie invested about CHF 206 million in Switzerland as a centre of industry. As in previous years, the focus was on automating and digitalising processes.

Migros Industrie employed an average of 13'119 people in 2021. Due to portfolio adjustments (Saviva) in 2020, the number of employees in the reporting year was down by 831 on the previous year. As a committed trainer, Migros Industrie trained a total of 527 apprentices in more than 30 different occupations.

Financial Services

Migros Bank again saw significant growth in volumes and earnings in its core business. Across all divisions, operating income increased by 14% to CHF 652 million in the reporting year.

Due to the continued high level of customer confidence, Migros Bank saw significant growth in its core business in 2021. This included a 9.4% increase in customer deposits to CHF 42.2 billion and a 53% rise in the number of asset management mandates.

**Encouraging trend in loans**
The volume of customer loans increased in parallel with customer deposits. The mortgage volume rose by 6.5% to CHF 42.6 billion. The increase in new customer loans across all divisions amounted to CHF 2.8 billion (+6.7%). Around half of this was attributable to the corporate clients business, which had its best financial year to date, due in part to a twofold increase in the number of acquisition and succession financing transactions. The growth in customer lending in both the corporate clients and private clients business was helped by an unchanged prudent risk policy, which also contributed towards an increase in net interest income (CHF 482 million, +15.2%).

Migros Bank is continuously expanding its range of services. In the private clients business, the brokerage service Nextkey was launched in collaboration with the subsidiary CSL Immobilien AG. Private clients also benefit from partnerships with providers of sustainability solutions, such as Helion for low-energy renovation and gowago.ch for e-mobility.

**Investment business further expanded**
The performance of the investment business was also encouraging. The value of all securities held in Migros Bank custodian accounts rose by 19.6% to CHF 16.8 billion. Commission income also increased by 7.9% to CHF 115 million due to the strong investment business. Trading business grew by 25.5%. Operating income across all divisions was up 14% to CHF 652 million.

**Investments in the future**
Operating expenses amounted to CHF 342 million (+9.1%), with personnel and material expenses both rising. Migros Bank employed around 100 new staff in 2021. It also invested in training in order to align advice even more to specific customer needs and to take account of the new requirements and job profiles resulting from digital transformation. Material expenses increased by 11.6%, due primarily to investments in the brand and in expanded digital services.

At 51.5%, the cost-income ratio was again encouragingly low compared with the sector average. Without special items, this figure would have been even better: as announced on 3 November 2021, Migros Bank voluntarily paid out retrocessions on Migros Bank funds of CHF 60 million to around 37,000 customers. Of this amount, CHF 7.6 million was allocated to commission income and CHF 52.4 million to provisions/losses. After taking into account depreciation, provisions and losses, operating income amounted to CHF 234 million.
Due to sustained pressure on net interest margins, the general conditions will remain challenging in 2022. Migros Bank sees itself in good shape, and its position is further strengthened by its strategic initiatives. These include expanding direct sales activities, increasing innovation to boost the core business with corporate and private clients, improving operational processes, and leveraging synergies with the Migros Group (e.g. with the Cumulus credit card).

Travel

The operating result of the Hotelplan Group was again heavily affected by the pandemic. Due to the sharp decline in winter business, net sales fell by 11.9% year-on-year to CHF 645 million.

The Hotelplan Group's results were again affected by the Covid-19 pandemic in the 2020/2021 financial year. Customers made far fewer bookings and travelled much less than in the previous year, in particular during the winter season. The pandemic situation eased somewhat during the summer months, which resulted in more bookings compared with the same period in the previous year. For several weeks, bookings received by the business entities Hotelplan Suisse, vtours and Interhome Group even exceeded the levels seen in 2019 before the pandemic. The total net sales of the Hotelplan Group amounted to CHF 645 million in the reporting year (previous year: CHF 732 million).

Flexible cancellation terms introduced
A customer survey carried out by Hotelplan Suisse in 2021 showed that customers want protection and flexible cancellation terms. Hotelplan Suisse answered this call with its new "care-free package", which includes flexible cancellation terms for selected destinations, plus daily updates on entry requirements. The "Flexible 50" tariff introduced by vtours also gives customers more flexibility to change planned trips.

Focus on sustainability and customer experience
To take account of changing market conditions and prepare for the post-pandemic era, the Hotelplan Group used the 2020/2021 financial year to streamline its strategy. The Group-wide strategy process resulted in the ONWARDS! programme, which focuses on the core topics of sustainability and customer experience. In the area of sustainability, the Hotelplan Group was the first Swiss travel company to sign the "Glasgow Declaration on Climate Action in Tourism" in 2021. As part of this, it has pledged to reduce greenhouse gas emissions by 50% by 2030 and to achieve net-zero by 2050.

The Hotelplan Group is also committed to becoming climate-neutral in the current year by offsetting own greenhouse gas emissions that have not yet been reduced. It is also expanding its product portfolio to include sustainable holidays. In the area of customer experience, the Hotelplan Group strives to optimally link online and offline customer touchpoints across the entire customer journey, from initial contact to booking through to the stay in the destination.

Migros systematically invests in future-oriented technological solutions. The main focus is on digitalising the business units, transforming the supply chain and positioning the company as an attractive tech employer.

To build the future of Migros, modern digital foundations are needed. The Migros Group has paved the way for this: over the next few years, Cooperative Retailing will be made even fitter for the future with innovative technological solutions.

Digitalisation has become a central enabler in all business units of the Migros Community. Accordingly, the companies are preparing for the future together by modernising the digital core, reducing the complexity that has grown over time in the IT architecture, making greater use of synergies and developing key factors for the future.

Migros has launched various initiatives to achieve this. With EIGER, the biggest transformation programme in its history, Migros is completely renewing the digital core. The aim is to standardise as many processes as possible and thereby meet customer requirements more effectively and efficiently. In addition, the topic of sustainability will be communicated in a much more tangible way. In future, Migros wants its customers to be able to see in-store where products come from, who planted and harvested them, how they were brought to Switzerland and their ecological footprint. This will be done by mapping the products in the virtual world as a “digital twin”, which customers can then consult online while shopping.

In the reporting year, Migros continued to establish and expand key areas for successful transformation, such as digital business, analytics and enterprise IT architecture.

Secure and ecological supply chain
Alongside digitalisation, Migros is also focusing on the transformation of the supply chain. Through simplification and automation, it is pooling its competencies and strengthening its logistics. The first step in implementing this transformation has been taken with Switzerland's largest and fully automated cold warehouse, which went into operation in Neuendorf in the reporting year. Migros also supports the development of innovative and environmentally friendly logistics solutions throughout Switzerland with its extensive expertise across all process stages of the supply chain.

Helping to shape the future
With almost 3'000 technology jobs, Migros has become one of Switzerland's biggest and most attractive tech employers. To ensure that the transformation is successful, Migros also relies on qualified internal employees, who help to shape the future of the Group with their skills and expertise. In order to provide customers and employees with innovative technology solutions more quickly, the Lean-Agile (SAFe) approach to collaboration was introduced throughout the Group in 2021. It involves agile teams from different functions and disciplines working towards shared goals.
Vision & Strategy

Migros is recognised by its customers, its employees and the general public as the leading company for improving quality of life. Our vision: a better life every day.

Migros' products and services are oriented to everyday needs. Its range is directed at all sections of society and their specific needs for a better quality of life.

Our strategy

The strategy provides orientation for aligning the business entities of the Migros Group in five strategic business units (Cooperative Retailing, Migros Industrie, Commerce, Travel and Financial Services). It is formulated by the Executive Board on behalf of the Board of Directors of the Federation of Migros Cooperatives and approved by the latter. The entire Migros Group is bound by its targets, values, purpose and management principles.

The Migros Group is a diversified and vertically integrated group of companies with retail as the core business. Migros' business entities act as stand-alone businesses as far as possible. They are assigned clear objectives and roles. Potential synergies are fully exploited.

Our targets

— We are the undisputed market leader in the retail sector. In the other business units, we assume a leading position in the corresponding market segment.
— We systematically ensure growth abroad with the intention of strengthening the existing business units and the Migros Group in Switzerland.
— By expanding our digital business models (no-line) and transforming in-store retailing, we offer our customers the best and most complete shopping experience.
— We ensure long-term profitability for the Migros Group as a whole.

Our promise

— We are passionately committed to improving the quality of life of our customers. In the spirit of Gottlieb Duttweiler, we undertake to offer the best value for money.
— As a model employer, we create a motivating, performance-oriented working environment that attracts and retains the best employees.
— We undertake to create values for our cooperative members that guarantee the long-term and independent existence of Migros.
— We aim to collaborate directly with our suppliers based on free markets and competition. We continuously improve our products and services. We set ecological and social standards for working and production conditions.
— We take responsibility for our society. We promote the free and independent fulfilment of human potential. We manage our business in a socially responsible way that conserves resources. With our pioneering work, we create unique added value for people, wildlife and the environment.

The Migros Group launched a new strategy on 19 January 2022:

 ↗ migros.ch/strategie
Subsidiaries & Participatory Interests

The Migros Group includes the Migros Industrie companies, various retail and travel companies, Migros Bank and several foundations. On an organisational level, these are assigned to the members of the Executive Board of the Federation of Migros Cooperatives.

Governing bodies

Generally, the subsidiaries are wholly owned by the Federation of Migros Cooperatives (FMC). They are managed directly by members of the Executive Board as the heads of department. Within this role, they are responsible for the strategic direction and the composition of the respective board of directors and they usually act as its chair.

The boards of directors are generally composed of internal members. External members are appointed if additional expertise is needed or if required by law. The Board of Directors decides on external appointments, based on the recommendations of the Executive Board and the "Remuneration and Nominations Committee". The following all have external members: Denner Ltd, Digitec Galaxus Ltd., Hotelplan Management Ltd, Medbase AG, Migros Bank AG and Mitreva Ltd.

Responsibility

Migros takes its responsibility towards society, the environment and all stakeholders very seriously. This means finding a balance between economic, environmental and social goals. Together, they shape the actions and attitudes of the Migros Group.
Sustainable development

Ambitious climate targets, products with a transparent sustainability rating, and new organic food refill points throughout Switzerland: Migros made excellent progress in all strategic areas in 2021.

Ambitious climate targets set
In the reporting year, the Migros Group set itself the ambitious climate target of achieving net-zero by 2050. To reach this goal, it is pursuing a “reduce the maximum, offset the rest” strategy. A milestone target in 2030 is to reduce the Migros Group’s greenhouse gas emissions by 70% in comparison with 2019. Across the whole supply chain, the goal is to reduce greenhouse gas emissions by almost 30% in the same period.

By joining the Science Based Targets Initiative (SBTi) in 2020, the Migros Group has already committed to meeting comprehensive climate targets intended to limit global warming to 1.5°C. These targets, which are compatible with the Paris Agreement, have now been officially validated by SBTi.

Transparent sustainability with M-Check
With M-Check, Migros has been offering a high level of transparency on the sustainability of its own brands since 2021. Products are awarded one to five stars for animal welfare and climate compatibility, and this rating is displayed on the packaging. By the end of the reporting year, more than 3'000 products had already been rated with M-Check. The aim is for all Migros own brands to carry the rating by 2025.

New refill points throughout Switzerland for organic products
At the end of 2021, customers in 24 Migros branches were able to refill selected organic food products themselves and thus avoid the need for disposable packaging. The number of branches that offer this service will be doubled in the current year. The packaging-free refill points have already been used by over 50'000 customers since they were introduced.
Migros Commitment

Migros makes numerous contributions to strengthening social cohesion in Switzerland. Since 2021, the Migros Group’s social initiatives have been combined and communicated under one name: Migros Commitment.

Each year, Migros contributes more than CHF 160 million towards social causes. It creates a wide range of opportunities and launches bold initiatives in the areas of community, culture, education, health, technology and ethics, as well as climate and resources.

Since 2021, Migros has combined and communicated all its initiatives in this area under the name "Migros Commitment". These include Migros Culture Percentage, the Migros Pioneer Fund (formerly the Engagement Migros Development Fund) and the Migros Aid Fund.

In 2021, Migros Culture Percentage invested CHF 142 million in culture, society, education, leisure and business. The permanent institutions include the Gottlieb Duttweiler Institute (GDI), Migros Club School, Ferrovia Monte Generoso, the Migros Museum of Contemporary Art and the four "im Grünen" parks.

With the Migros Pioneer Fund, Migros extended its social commitment to other companies of the Migros Group in 2012. CHF 17 million was made available in the reporting year (CHF 18 million spent).

The Migros Aid Fund has been supporting social and ecological development aid projects in Switzerland and worldwide since 1979. CHF 1 million is made available for this purpose each year.

migros-engagement.ch
Health

The health of the population is important to Migros. In 2021, it underlined its commitment to health with new offers in the areas of psychotherapy and psychology.

To give the Swiss population better access to integrated care, Migros stepped up its activities in the health sector in 2021. For example, the network of medical, dental and pharmaceutical contact points of the Medbase Group was expanded. In addition, Medbase helped to deal with the Covid-19 pandemic through its participation in the cantonal vaccination and testing centre in Winterthur (ZH) and by providing vaccination and testing services in Medbase Medical Centres and pharmacies.

In the area of dental care, bestsmile, a teeth correction and cosmetic dentistry start-up that counts Sparrow Ventures among its investors, grew its network of practices to more than 36 throughout Switzerland in 2021.

In the areas of optometry and hearing aids, MiSENSO opened seven more specialist stores in German-speaking Switzerland in 2021.

With its entry into the fields of psychotherapy and psychology, Migros expanded its integrated healthcare portfolio in the reporting year. WePractice is a modern group practice that provides access to flexible spaces. Migros also increased its stake in the online platform HelloBetter, which offers psychological therapy courses.

Since 2021, the health platform iMpubs has also been offering personal health coaching to help people in Switzerland lead a healthy lifestyle.

Migros now stocks more than 1'000 certified vegan and vegetarian products, making it even easier to follow a plant-based diet. The own-brand range V-Love was expanded to more than 130 products in the reporting year.
Personnel Figures

The Migros Group made it through the second year of the pandemic, due in no small part to its dedicated employees.

With 97’541 employees in more than 100 companies, the Migros Group is the largest private employer in Switzerland. The workforce shrank by 1.6% in comparison with the previous year, due mainly to staff reductions in the strategic business units Travel (−26.4%) and Migros Industrie (−6.0%). While the Hotelplan Group continued to struggle with the effects of the pandemic, the reduction at Migros Industrie was due to the sale of Saviva AG in particular. The number of employees in Cooperative Retailing remained constant. In contrast, the number of employees in online retail saw a year-on-year increase of 35.7%¹, while the workforce in the health segment grew by 9.1%. The gross fluctuation rate² for employees paid a monthly salary was 16.9%, of which internal transfers within Migros made up 2.6%.

88% of employees are employed in Switzerland; just under 60% are female and around half work part time. The average age is 41.3 years: 27% of employees are under 30, 45% are aged 31-50 and 28% are over 50. Around 47’000 employees (64%) in Switzerland³ are covered by a collective labour agreement.

Employee retention at the Migros Group is extremely high. Employees stay with Migros for 10.8 years on average. Around 1’450 jobs in various sectors were advertised on the Migros Group job platform “Arbeitswelt” during the course of 2021.

</table>

1 These figures relate exclusively to Migros Online SA, Migros Digital Solutions and Digitec Galaxus.
2 The gross fluctuation rate includes all departures including natural (retirement, death, temporary employment contract), involuntary (initiated by employer) and voluntary (initiated by employee), and internal transfers within Migros.
3 The population only includes employees in Switzerland. It does not include those with a management contract or employees with an employment level of below 20% who are paid by the hour.

Compensation

Personnel costs increased by 0.1% to CHF 5’906 million in 2021. In nominal terms, the wages paid by Migros companies that fall under the Collective Labour Agreement (N-CLA) rose by 0.4% on average. Between 2017 and 2021, wages rose by 3.2% in nominal terms and by 1.5% in real terms on average.

For employees covered by the N-CLA, a decision was made in the reporting year to standardise and increase the minimum and reference wages at national level from the start of 2022.

The regional Migros Cooperatives passed the legally required equal pay analysis. However, Migros Group companies also go above and beyond the legal requirements and have long pursued the principle of “equal pay for equal work“. With the help of relevant tools, salaries are determined on the basis of position alone. This means they are not influenced by gender, origin, religion, skin colour or any other characteristics that could give rise to discrimination.
Employee pension plans

The Migros Pension Fund (MPF) is responsible for the occupational pensions for its members in 38 associated companies of the Migros Group. In 2021, it looked after some 51’700 members and 29’300 pensioners.

The MPF provides above-average pension benefits. Furthermore, the employer pays two thirds of the total contributions. In 2021, the MPF generated a net return of 8.5% on its capital investments of CHF 29.7 billion. The coverage ratio increased to 133.9% at the end of 2021. The pension capital was calculated with a technical interest rate of 1.5% on the basis of the BVG 2020 base tables, using the generational concept for mortality assumptions. The MPF pursues a sustainable investment policy and supports the targets of the Paris Agreement.
Talent Management

Migros supports the ongoing development of its employees with a wide range of training, continuing education and support programmes.

To facilitate Migros’ evolution into a learning organisation, the project "Neue Lernwelt" was continued in 2021. With blended learning and digital courses, Migros encourages autonomous learning among its employees. Staff of all departments in all Migros companies can learn from any location in their own time and at their own pace. Migros thereby improves the employability, commitment and career prospects of its employees.

To help Migros achieve its strategic goals, a comprehensive talent management system (TMS) was introduced in the previous year. This ensures the personal and professional development of employees and increases the long-term mobility of high-potential employees within the Migros Group. The goals of employees are tied to those of the company by means of clear objectives and skill-specific development measures. Active dialogue between staff and managers, combined with a strong feedback culture, facilitate the continuous development of employees. Structured talent conferences and cross-company succession planning enable more key positions to be filled by internal candidates.

Migros' commitment to training and education within society is second to none.

More than 3'600 young people\(^1\) completed their basic training in more than 60 different professions in the Migros Group and thereby played an active part in shaping the future of the company.

96% of trainees successfully completed their apprenticeship in summer 2021. The average rate of subsequent employment stood at 66% in the reporting year. 1'430 motivated trainees started an apprenticeship.

Through various programmes, 150 struggling youngsters were given support in getting started with their career or finding a job. With its new service to support the social inclusion of young people, Migros has taken another decisive step to increase its commitment in this area.

\(^1\) The value is now shown as an average of the monthly figures for the calendar year.
Diversity & Inclusion

The diversity and different experiences, views and skills of the workforce are essential to ensuring that Migros remains a successful and innovative company.

In 2021, 31% of Migros’ workforce consisted of foreign nationals from more than 170 countries. The proportion of female employees was 16% at director level and 30% at executive level. Migros is always striving to further increase diversity at these leadership levels.

The ♀ compatibility of work and family is very important at Migros. The company supports flexible working at all levels. In 2021, 49% of Migros employees worked part time; two thirds of these were women and a quarter were men.

To further strengthen Diversity & Inclusion, a three-pronged strategy was developed in 2021. With an inclusive corporate culture, equal opportunities and flexible working conditions, Migros creates an environment in which diversity can flourish.

Migros has introduced the first measures for these priorities, including advertising full-time roles of 80% to 100%, supporting flexible and remote working, and using inclusive language. Further measures are planned and their progress will be continuously monitored and communicated.

Health & Performance

Migros offers its employees continuous support in the areas of health and safety in order to improve their wellbeing, commitment and performance.

Migros is active in the following strategic areas: occupational health and safety, physical and mental health, employability and employee commitment.

By implementing a systematic health system – the group-wide solution (GWS) M-Group – Migros protects its employees against accidents in the workplace and work-related illness. The GWS defines mandatory safety standards based on regulatory requirements and the companies' needs. It is externally audited and recertified every five years by the Federal Coordination Commission for Occupational Safety. In addition, the Migros Group companies undergo regular internal audits to ensure compliance with legal and company requirements. These efforts are reflected in a low occupational accident rate of 0.3%.

Migros also takes measures above and beyond the statutory health and safety requirements to ensure a safe working environment and healthy employees. Thirteen Migros companies have been awarded the Friendly Work Space quality label by the Swiss Health Promotion Foundation for their efforts in the area of occupational health management (OHM). Under the own brand well@Migros, all Migros Industrie companies have committed to doing as much as possible to ensure the health and wellbeing of their employees. Despite the pandemic, the Migros Group’s average rate of absenteeism due to illness remained constant at 4.6%, and absence due to non-occupational accidents was low at 0.5%.

High level of commitment

To maintain the employability of its people, Migros offers a wide range of training and development options for employees and managers. It also promotes flexible working models and offers the possibility of reducing working hours in the lead up to retirement.

The success of the investments in health and performance and in the corporate culture is reflected in the excellent results with regard to long-term employee commitment. The results across all participating companies of the Migros Group were well above the Swiss benchmark.

The Federation of Migros Cooperatives is a cooperative association as defined by Art. 921 et seq. OR. Together with the affiliated regional Cooperatives, the companies that belong to them and the foundations, it makes up the Migros Community, or simply Migros.

Legal form & mission

The Federation of Migros Cooperatives (FMC) coordinates the activities of Migros, determines its strategy and represents the Migros Community to the outside world. As a Migros service provider, it is responsible for covering the needs of the regional Cooperatives through a system of combined purchasing and production, as well as by establishing or acquiring participatory interests and subsidiary companies of all kinds.

The organs of the FMC are the Assembly of Delegates, the Board of Directors, the Executive Board and the Board of Control.

Statutes & regulations

Cooperative capital – distribution & liability

The cooperative capital of the FMC totals CHF 15 million (Migros Group Financial Report, consolidated group, p. 107). The shares have a nominal value of CHF 1'000, pay interest of 4% and are not transferable.

In accordance with the statutes, the shares that do not represent participation certificates are underwritten on the basis of the annual retail sales. The number of shares acquired by the Cooperatives is based on the conditions in 1957. As it was no longer necessary to issue new shares to raise finance for the FMC, and because the voting rights are exercised independently of the share distribution, the Board of Directors decided not to change anything and has retained the original distribution from 1957.

Liability for the obligations of the FMC is limited to its assets.

Assembly of Delegates

The Assembly of Delegates met twice in 2021. In addition to the statutory business, the main items on the agenda included the new mission statement of the Migros Group and the issue of alcohol sales.

Due to the pandemic, the meeting of the Assembly of Delegates on 27 March 2021 was held virtually and streamed live, and the statutory business was approved online.

The meeting of the Assembly of Delegates on 6 November 2021 was held in person. The delegates elected Ernst & Young as the new external Board of Control for the financial years 2022 and 2023, and approved the new mission statement of the Migros Group. The Assembly of Delegates also approved an amendment to the statutes to enable cooperative members to vote by ballot on whether to allow the sale of alcohol in Migros branches.

Composition & electoral procedure

In accordance with the statutes, the Assembly of Delegates of the Federation of Migros Cooperatives (FMC) comprises a total of 111 members. A hundred delegates are elected by the regional Cooperatives on the basis of a prescribed quota. Each Cooperative is allocated at least five seats, and the remaining seats are distributed based on the number of members in the two calendar years preceding the election. In addition, each Cooperative designates an ad-hoc representative from its Board of Directors for each assembly meeting. The committee is led by an external independent chair.

The number of delegate votes for each Cooperative is distributed as follows (elected delegates per Cooperative):

<table>

Working methods & powers

The Assembly of Delegates has an Office (Office of the Assembly of Delegates) and also operates the permanent working groups Migros Aid Fund and Annual Report of the Board of Directors, whose duties and organisation are regulated in the organisational rules of the Assembly of Delegates and in mandates. There is also a facility for setting up ad-hoc working groups for temporary assignments.
The principal powers of the Assembly of Delegates include defining and amending the statutes, electing and dismissing members of the Board of Directors, passing resolutions on defining and amending Migros' basic business policy, taking the decision to dissolve the FMC, approving the Annual Report and financial statements of the FMC, deciding on the appropriation of the profit for the year, ratifying the actions of the Board of Directors and the Executive Board, and selecting and appointing the Board of Control.

Members of the Assembly of Delegates

The 100 delegates were elected by the bodies of the regional Cooperatives for the term of office 2020 to 2024. With the ten representatives of the regional boards of directors of the Cooperatives and the President, they make up the 111-strong Assembly of Delegates.

Office of the Assembly of Delegates

The Office of the FMC Assembly of Delegates met six times in 2021. It prepares the agenda of the Assembly of Delegates and acts as a central interface between the Board of Directors and the Assembly of Delegates.

Marianne Meyer

(1967 CH)
President of the FMC Assembly of Delegates (since 2020, elected until 2024)
Executive MBA Lucerne University of Applied Sciences and Arts, specialisation: general management and leadership (postgraduate course)

Board of Directors

The Board of Directors is responsible for the overall management of Migros, including subsidiaries of the Federation of Migros Cooperatives and other interests. It formulates the strategy and is also responsible for creating efficient management and organisational structures.

In 2021, the Board of Directors of the Federation of Migros Cooperatives held seven meetings, each lasting between two and nine hours. Two meetings were convened the day before and a strategy workshop was also held.

In addition to the statutory matters and periodic reporting on all strategic business units of Migros, including the subsidiaries, the Board of Directors approved various investments of the subsidiaries and Migros Industrie. In addition, it focused intensively on the Group strategy and adopted a new mission statement for the attention of the FMC Assembly of Delegates. It also appointed a new member to the Executive Board (Head of Finance Department) with effect from 01.01.2022.

Composition & electoral procedure

The Board of Directors is composed of 23 members: ten external, independent members and 13 internal members. The external, independent persons are the Chairwoman and the nine members from the business, financial and IT sectors. Since they are employed by Migros, the ten representatives of the ten regional Cooperatives (normally the managing directors, but may also be a member of the regional board of directors of a Cooperative), the Chief Executive Officer and the two employee representatives are regarded as internal members. Of the current 21 members (two vacancies), five (23.8%) are female.

In terms of the composition and size of the Board of Directors, Migros deviates from the guidelines of the Swiss Code of Best Practice for Corporate Governance. According to the statutes, each regional Cooperative chooses its representative and therefore decides itself who sits on the FMC Board of Directors. This influences both the size of the body and the ratio of external to internal members. The Governance Committee has the power to initiate sanctions throughout the Group in order to protect Migros’ reputation.

With the exception of the ten representatives of the regional cooperatives, who are appointed by the electoral bodies of the regional cooperatives, members are elected for a four-year term of office (two-year term of office from 2024) by the FMC Assembly of Delegates. Re-election is permitted, provided that the maximum term of office of 16 years is not exceeded (twelve years from 2024). Members retire on reaching the age of 70.
Working methods & powers

Decisions made by the Board of Directors are passed by a simple majority of the members present – observing the usual rules for abstention. Detailed preparation and the preliminary work done by the committees mean that discussions of the full Board of Directors can be conducted effectively and efficiently.

The members' attendance rate was 99% in the reporting year. The six members of the Executive Board and the President of the G. and A. Duttwiler Foundation also take part in the meetings in an advisory capacity.

As part of a process of self-evaluation, the Board of Directors regularly reviews its own and its members' approach and performance. The findings of this evaluation are implemented on a continuous basis and discussions are held regularly on the implementation status. External consultancy services are used to advise on specific topics.

The duties of the Board of Directors include in particular:

— Formulation of the strategy and the business and ideal goals of Migros
— Monitoring and coordination of the achievement of these goals
— Creation of efficient management and organisational structures within Migros
— Implementation of the resolutions of the FMC Assembly of Delegates
— External representation of Migros
— Appointment and supervision of the FMC Executive Board

The Board of Directors delegates operational management to the Executive Board, which is headed by the Chief Executive Officer. This also includes the overall management of the FMC's subsidiaries and other interests, where the internal board members are appointed by the members of the Executive Board. External board members, such as for Hotelplan or Migros Bank, are appointed by the Board of Directors if additional expertise is needed or if required by law.

The responsibilities and remits are set out in the organisational rules of the Board of Directors and in the directives of the committees.

Composition Board of Directors

The Board of Directors of the Federation of Migros Cooperatives comprises 21 members (as at 31.12.2021), who have been elected until 2024.
Chairwoman

Swiss Federal Diploma in Marketing Management

Stefano Patrignani
(1963 CH + I; deceased 19.03.2021) Managing Director Migros Basel
Committee: Migros Retail
Lic. oec. University of St. Gallen

Committees

The FMC Board of Directors works in liaison with a number of permanent committees. With the exception of the Migros Retail Committee (ADH), these specialist bodies consist predominantly or exclusively of external, independent members of the Board of Directors, who contribute their specific specialist knowledge.

Remuneration and Nominations Committee

The Remuneration and Nominations Committee is responsible for matters relating to staff remuneration and nomination. It prepares and submits proposals to the Board of Directors on remuneration of the Migros organs and the salary bands of Migros’ senior management. It determines the salary of the Chief Executive Officer, as well as the salaries of the Executive Board members based on the CEO’s recommendations. The Chair of the Board of Directors can also request the Committee’s input on other remuneration – and salary – related issues.

The Committee is responsible for ensuring that an appropriate Chair of the FMC Board of Directors and CEO are elected, taking into account the voting regulations, and submits nominations to the Board of Directors. In addition, it supports the Board of Directors in reviewing the proposal for members of the Executive Board, submitted by the CEO. The Committee also submits a proposal to the Board of Directors for external board members of Federation of Migros Cooperatives (FMC) subsidiaries that have permanent external boards of directors.

Where there is a conflict of interests, the members concerned do not participate. The Committee consists exclusively of external, independent members. In the case of impending nominations, two additional members may join the Committee. The Committee met twice in 2021.

— Ursula Nold (Chairwoman, external, independent)
— Jean-René Germanier (external, independent)
— Marianne Janik (extern, independent)
Audit Committee

The Audit Committee supports the Board of Directors in the supervision and review of the accounting and financial reporting of the FMC and the Migros Group, the Board of Control and risk and compliance management within FMC and the Migros Group. The duties and powers assigned to the Board of Directors in accordance with the law, the statutes and the rules of organisation remain the Board of Directors’ responsibility. The Audit Committee has no decision-making powers, except for those related to the audit plan and fee budget for the external and internal auditors.

In performing its duties, the Committee has unrestricted access to the management of all group companies and their business records and documents. It operates in accordance with the rules of best practice, which are observed by large Swiss business enterprises. The Committee reports regularly to the Board of Directors on the results of its inspections and proposes appropriate measures when necessary. It consists exclusively of external, independent members. It met five times in 2021.

— Hans A. Wüthrich (Chairman, external, independent)
— Dominique Biedermann (external, independent)
— Paola Ghillani (external, independent)
— Cornelia Ritz Bossicard (external, independent)

Finance Committee

The Finance Committee ensures that the available financial resources are properly deployed, taking into account the agreed strategies, plans and requirements of the Migros Group. In particular, it reviews proposals for the acquisition and sale of businesses or business units, and large investments or divestments by the FMC and its subsidiaries (provided that these fall within the remit of the Board of Directors). It also makes recommendations to the Board of Directors.

The Finance Committee consists primarily of external, independent members. It met seven times in 2021.

— Martin Künzi (Chairman, external, independent)
— Joerg Blunschli (internal)
— Christoph Tonini (external, independent)
— Hubert Weber (external, independent)

Retired in 2021:

— Anton Gäumann (until 15.11.2021, internal)

Migros Retail Committee (ADH)

The Migros Retail Committee (ADH) deals with all matters that are relevant to the retail business under the Migros brand – the “orange M” – especially merchandising and retail strategies, and makes the relevant applications to the Board of Directors.

The Retail Committee formulates binding procedural plans, priorities and actions for the implementation of the budget. It is also responsible for supervising and controlling budgets, and introduces appropriate measures when there are deviations from these.
In addition to the Chairman, the Migros Retail Committee (ADH) includes the ten managing directors of the Cooperatives and members of the Executive Board (no voting rights). Having only internal members on the Migros Retail Committee recognises the fact that the Committee is responsible for preparing the Cooperative Retailing strategy for the Board of Directors, as well as performing operational tasks that help coordinate the core business. Close coordination of the core business is essential.

Two additional external members advise the Board on deliberations and decision making in the treatment of strategic issues.

The 17 (or 19) members of the Committee met on six occasions in 2021.

— Fabrice Zumbrunnen (Chairman, internal)
— Max Alter
— Jörg Blunschi
— Jean-Marc Bovay
— Anton Chatelan
— Peter Diethelm
— Philippe Echenard
— Mattia Keller (since 01.12.2021)
— Guido Rast

Retired in 2021:

— Lorenzo Emma (until 30.11.2021)
— Anton Gäumann (until 15.11.2021)
— Stefano Patrignani (deceased on 19.03.2021)

Additional strategic issues:

— Paola Ghillani (external, independent)
— Hubert Weber (external, independent)

Six members of the Executive Board (no voting rights, all internal).
Management

The management is responsible for the operational leadership of the Federation of Migros Cooperatives. It consists of the CEO, the members of the Executive Board and the heads of the management divisions.

The Chief Executive Officer (CEO) is appointed by the Board of Directors of the Federation of Migros Cooperatives (FMC) and confirmed as a member of the Board of Directors by the FMC Assembly of Delegates. The CEO has the right to give directions and has overall responsibility for the operational management of the FMC. The remaining members are responsible for the six departments: HRM, Communication and Commitment Migros Group; Marketing; Operations; Migros Industrie; Finance; Commerce.

Composition of management

The seven-member Executive Board oversees the operational management of the FMC and is responsible for directing the management divisions.
Executive Board

Version 31.12.2021

Fabrice Zumbrunnen
(1969 CH)
Chief Executive Officer FMC
Member since 2012
Lic. oec. University of Neuchâtel; postgraduate course in statistics, University of Neuchâtel

Internal Control Instruments

The Board of Directors and the Executive Board of the Federation of Migros Cooperatives attach great importance to good corporate management. This includes internal controls and monitoring by means of integrated multi-level risk management and a compliance management system.

Compliance

The Board of Directors of the Federation of Migros Cooperatives (FMC) has overall responsibility for compliance.

Migros has a central compliance function that is allocated to the FMC Legal & Compliance Directorate as a staff unit of the FMC Chief Executive Officer. It has direct access to the Chair of the Board of Directors at all times. A quarterly report is submitted to the Executive Board and the Audit Committee of the Board of Directors on compliance activities, the implementation status of the Group-wide Migros compliance management system and relevant compliance incidents.

Migros has a code of conduct that applies to all employees of the Migros Group.

As a fundamental element of its strategy, Migros is committed to acting responsibly and within the law, and to combating corruption in any form. Its compliance management system is therefore based on a code of conduct that applies to all employees of the Migros Group companies.

The twelve principles contained in it are consolidated by various internal guidelines and information sheets. For the companies of the Migros Group, the guidelines on prevention of corruption, conflict of interest, adherence to competition and cartel law, and compliance with data protection provisions are the minimum requirements of the compliance system and training is provided on a regular basis, tailored to the different target groups.

In this respect, the integrity of employees is paramount. Migros expects all its employees to take responsibility for their actions, to show consideration for people, society and the environment, to observe laws and rules and to report any breaches to the relevant internal reporting office.

In addition, employees of Migros Group companies in Switzerland and some foreign companies also have access to the web-based, internal advisory office M-Concern. Incidents can be reported to it anonymously. Structured procedures are in place for dealing with reported grievances and for internal investigations.

Risk management

Migros implements a comprehensive risk management system across all companies of the Migros Group. The FMC Board of Directors is responsible for its content. It defines the general framework for the risk management activities within the Migros Group, and ensures that risks are assessed on time and in the appropriate manner.

The FMC Board of Directors is regularly informed about the risk situation of the Migros Group companies and the strategic business units by the Executive Board. Based on this information, it assesses the impact of the material risks on the strategic business units and then makes a decision on further measures.
Internal auditing also provides a monitoring and control function. As it operates independently of operational activities, it is able to identify any weaknesses in the risk management system and the internal control system, and to take measures to improve the effectiveness and efficiency of the monitoring and control processes.

The risk management process is integrated in the annual strategy and financial planning process. The results of the risk assessment are appropriately considered during the annual analysis of the corporate strategy.

**Internal auditing**

Mitreva AG, an independent subsidiary of the Federation of Migros Cooperatives, has been appointed as the internal auditor of the Migros Community by the FMC Audit Committee and the boards of directors of the regional Migros Cooperatives. Its Board of Directors consists of independent experts.

Mitreva helps the business entities (the entire Migros Community) to achieve their objectives by ensuring an independent approach to the assessment, improvement and effectiveness of internal control processes. It reports to the Audit Committee and the Chief Executive Officer, and to the regional boards of directors and their managing directors.

The internal audit function is geared towards generating added value and optimising business processes.

The Chair of the Board of Directors is responsible for internal auditing, which is managed and monitored by the Audit Committee. The internal auditor reviews the audit plan approved by the committee. These auditing services are geared towards generating added value and optimising business processes. It supports the boards of directors and executives in achieving their objectives by assessing and improving the effectiveness of risk management, controls (level 3) and governance (management and supervision processes) through a systematic and focused approach.

The findings and key points are presented quarterly to the Audit Committee and the Board of Directors; the Audit Committee regularly reviews the audit plans, the scope of the internal audit, the fees and the results.

**G. and A. Duttweiler Foundation**

The purpose of the independent foundation is to preserve the ideas of Migros’ founder. It also monitors adherence to the statutes and covenants at Migros, and approves the salary bands for Migros’ management and the mandate remuneration of the members of the FMC Board of Directors.

At the end of 2021, the Foundation Council comprised the following six, predominantly independent members:

- David Bosshart (Chairman)
- Max Alter
- Christian Biland
- Walter Huber
- Elena Mattle-Andreoli
- Ursula Schoepfer-Bretscher

⇒ G. and A. Duttweiler Foundation
Information Policy

Migros maintains up-to-date communications with all stakeholders – in the interest of sound contemporary corporate management.

Open communication and maximum possible transparency are the cornerstones of everything that Migros does. Migros maintains up-to-date communications with all stakeholders. Fundamental to all communications is the preservation of Migros’ credibility. Where possible, employees are the first to be informed about important events. Open communication at all levels is a key element of managerial responsibility.

The official publication is the Migros magazine, which is provided free of charge to all cooperative members. The magazine is published weekly in German and French, with a circulation of more than 2 million. In the Italian-speaking part of Switzerland, Azione is the official publication (circulation: 101'262 copies).

In these publications, Cooperative members and customers are provided with news from their regions, as well as information about impending elections and ballots once a year.

⇒ Migros-Magazin
Board of Control

Based on the proposal of the Board of Directors, the Assembly of Delegates of the Federation of Migros Cooperatives elects an independent auditing company as the external Board of Control. The Board of Control is appointed for a term of office of two years, and may be reappointed.

Based on the recommendations of the Audit Committee of the Federation of Migros Cooperatives (FMC), the FMC Board of Directors proposes an independent auditing company to be elected by the Assembly of Delegates.

Existing Board of Control PwC
PricewaterhouseCoopers (PwC) was chosen as FMC's auditor for the first time in July 2000 (previously Schweizerische Treuhand Gesellschaft – Coopers & Lybrand AG); it has been confirmed as the FMC Board of Control and the auditor of the Migros Group until 30 June 2022. The Chief Auditor, Sandra Böhm, certified auditor, took up her post in the 2020 financial year. PwC will ensure that this partner is replaced as mandate manager after seven years at the latest.

Based on the recommendation of the committees of the ten regional Migros Cooperatives, the boards of directors propose an independent auditing company to the Cooperative Councils or the voting circles for election. PwC was elected as the Board of Control of the Migros Cooperatives for the first time in 2012. It is elected as auditor of the subsidiaries of the FMC as part of the overall mandate.

The Board of Control is responsible for assessing the consolidated financial statements with regard to their compliance with Swiss GAAP FER and Swiss law, and the compliance of the separate financial statements of the Federation of Migros Cooperatives, the ten regional Cooperatives and other Group companies.

New Board of Control EY
As announced in the previous year, Migros put the mandate for the statutory auditor of the FMC and its subsidiaries, and for all companies, pension funds and other foundations affiliated with the cooperative association, out to tender. This decision is based on the principle of sound corporate management, which recommends a tender process at regular, longer-term intervals. Due to the long duration of the mandate, PwC was not invited to participate in the process. On 6 November 2021, the FMC Assembly of Delegates approved the FMC Board of Directors’ proposal to elect the auditing company EY (Ernst & Young) as the new Board of Control for the financial years 2022 to 2023.

Auditing & other fees
Across the Group, PwC invoiced the following fees for services performed in relation to the 2021 and 2020 financial statements:
The auditing services include the following duties:

— Specific tasks to assess the consolidated financial statements and financial statements of the Federation of Migros Cooperatives, and the financial statements of the regional Cooperatives and other subsidiaries.

— Audit services that can usually only be performed by the statutory auditor, such as auditing the introduction of new valuation and accounting principles, information systems and the corresponding control environment. The internal audit function of the Migros Community makes an important contribution to these auditing services.

The other services cover the areas of tax consulting, accounting and due diligence audits performed in 2020 and 2021. The other strategic services include advisory support for system implementations. This advice is provided by the audit firm due to its specialist consulting expertise in this area, and because otherwise the selection of the auditor for the above-mentioned tender process might be further restricted.

1 The other strategic services include the continuation of advisory support for system implementations. This process was selected in consultation with the Audit Committee, in order not to further restrict the number of potential auditing companies in the above-mentioned tender process.
Remuneration Report

Migros has a clearly defined remuneration policy. The remuneration of Migros’ management is based on predetermined salary bands. The Board of Directors of the Federation of Migros Cooperatives issues guidelines for the remuneration of the other organs.

The salary bands define minimum and maximum salaries for the various management levels. They are regularly reviewed and adjusted by the Board of Directors of the Federation of Migros Cooperatives (FMC) and must be approved by the G. and A. Duttweiler Foundation. Mitreva AG verifies that the salary bands are adhered to; the Chair of the Board of Directors is informed of the results in writing.

Migros’ remuneration model is clear and simple. Salaries are based consistently on rates of pay in the market, and the rationale of social capital is taken into account when fixing them. Workplace quality is a conscious component of responsible management. The benchmark working conditions, such as regulations for annual leave and employee training entitlements, are published on the Migros employment website.

For the remuneration of the Migros organs, the Board of Directors issues FMC guidelines that are regularly reviewed and adjusted. These also apply to the external members of the boards of directors of FMC subsidiary companies. Internal members do not receive any form of remuneration for such mandates. The remuneration of the Board of Directors is approved by the G. and A. Duttweiler Foundation.

The bonus-free remuneration and salary system is one of Migros’ core values and is integral to the company’s long-term development.

Fees paid to members of the Board of Directors

Members of the FMC Board of Directors (including the Chairwoman) received a total of CHF 1’238’675 in fees in 2021 (2020: CHF 1’114’825), including all attendance fees for committee meetings and conferences. No other forms of remuneration are paid, in particular no expenses. The Chief Executive Officer and the managing directors of the regional Cooperatives did not receive any form of remuneration in their role as members of the FMC Board of Directors.

The detailed disclosure of the remuneration paid to members of the Board of Directors is shown below:

Salaries of the Executive Board

The seven members of the FMC Executive Board (including the CEO) received a total of CHF 5.513 million in 2021 (2020: CHF 5.572 million). The highest single salary paid (Fabrice Zumbrunnen, Chief Executive Officer) was CHF 920’000 (2020: CHF 909’000). Two thirds of pension fund contributions are paid by the employer and one third by the employee.
Members of the Executive Board are provided with a company car. An expenses allowance is included in the salaries above. The members of the Executive Board are not entitled to any contractually regulated severance pay, and no variable remuneration is paid. The seven members of the Executive Board do not receive any form of remuneration for business-related seats on management boards, supervisory boards or foundation boards. The remuneration for any approved mandates outside the Migros Group is paid to the employer.

| Total                      | 1'238'675 | 1'114'825 |

---

1. The Chairwoman of the Board of Directors does not receive an attendance fee. The total remuneration includes expenses.
2. Minus contributions to the occupational pension scheme (employer and employee contributions).
3. The Deputy Chair receives a fixed fee of CHF 17'350 from 01.07.2020. The total compensation includes extraordinary expenses due to the role as Chair of the Audit Committee.
4. The employee representatives receive a fixed fee of CHF 1'150 per meeting/conference from 01.07.2020.
5. Committee meetings are paid as follows:
   - Full-day meeting from 01.07.2020: CHF 1'750
   - Half-day meeting from 01.07.2020: CHF 1'150
   - Meeting before/after meetings of the Board of Directors from 01.07.2020: CHF 575
   - Allowance for the chair of the committee: fixed annual fee of CHF 12'600 from 01.07.2020
6. The total compensation for external members includes annual flat-rate compensation of CHF 63'000 and attendance fees (see footnote 5), plus accommodation and meals in own seminar centre during meetings of the Board of Directors. No expenses are reimbursed.
7. Plus statutory contributions to social insurance.
8. Plus remuneration for the seat on the board of Seba Aproz SA, amounting to CHF 10'000 per year.
9. Plus remuneration for the seat on the board of Mitreva AG, amounting to CHF 16'500 per year.
About this report

As a large group of companies and service providers, Migros is in constant contact with people and its environment in various ways.

In addition to Migros' economic performance and its asset, financial and earnings position, this report also highlights its roots in the natural and built environment and its interactions with society and various stakeholders. Migros has a clear concept of value creation and manages the company accordingly.

Financial reporting

The present Migros Group financial statements have been prepared in conformity with the provisions of the law and the accounting and reporting recommendations of the Foundation for accounting and reporting recommendations (Swiss GAAP FER). In order to provide readers of the financial statements with as much transparency as possible, the Migros Group has decided to impose more stringent accounting and disclosure requirements in many areas than those required by Swiss GAAP FER. Accordingly, Swiss GAAP FER forms the basis for financial reporting which is as transparent, clear and reader-oriented as possible.

The main accounting principles can be found in the PDF Migros Group Financial Report. The financial report of the Migros Group is available in English, German and French. The German version takes precedence.

Governance

The information about governance describes the overall organisational and contextual structuring of the management and supervision of Migros, a cooperative structure. The Federation of Migros Cooperatives is committed to responsible, purposeful and modern governance. It therefore voluntarily adheres to the provisions of economiesuisse's Swiss Code of Best Practice for Corporate Governance, to the Corporate Governance Directive of the SIX Swiss Exchange (DCG) and, where appropriate, to the federal ordinance against excessive pay (VegüV). Any deviations from these provisions are referred to in the report.

Sustainability reporting

Since the 2020 reporting year, sustainability reporting has been an integral component of the regular sustainability communications on the corporate website. In addition to continuous reporting on the main sustainability efforts in accordance with the guidelines of the Global Reporting Initiative (GRI), relevant key figures are also published on the website each year. By realigning its sustainability reporting, the Migros Group has responded to the wish of its stakeholders for the continuous and transparent communication of progress. Selected highlights from the reporting year are summarised in this annual report. migros.ch/sustainability

Disclaimer
Area of application
This is the online portal of the Migros Annual Report. This information and the regulations of use relate to this portal. The information and regulations of use are subject to change at any time.

Intellectual property and other rights
The Federation of Migros Cooperatives (FMC) is the owner and operator of this portal. All trademarks, names, titles, logos, images, designs, texts and other material used belong to a legal entity of the Migros Group or a contractual partner of the same. No rights whatsoever (e.g. rights of use, intellectual property rights) are acquired through opening, downloading or copying pages. Complete or partial reproduction, transmission (electronic or otherwise), modification, linking or use of the website for public or commercial purposes is not permitted without prior written permission.

Exclusion of liability
The FMC excludes any liability (including negligence) that may result from use, access or inability to access the portal or individual elements of it. Access to the portal and its use are not guaranteed.

The FMC makes every effort to ensure that the information contained in the Annual Report is accurate. Nevertheless, the FMC does not provide any explicit or implicit assurances or guarantees (including towards third parties) as to the accuracy, reliability or completeness of the information.

The FMC rejects any liability as a result of incorrect, inadequate or missing information.
The portal contains links to third-party websites. These sites are not operated or monitored by the FMC. The FMC assumes no responsibility for the content or compliance with legal data protection regulations by the operators of linked sites.

**Data transmission via the internet**

The internet is an open network accessible by everyone and is therefore generally not considered a secure environment. Although the individual data packages are usually transmitted in encrypted form, this does not apply to the sender or recipient. Furthermore, it is possible for data to be transferred to another country, which may include countries with a lower level of data protection than that of Switzerland, even if the sender and recipient are both located in Switzerland. The FMC assumes no liability for data security during its transmission via the internet.

**Collection and use of information**

When the portal is accessed, various types of access data are stored (e.g. IP address, date and time of access, name of the file accessed).

No personal data is analysed. Data is processed anonymously for statistical purposes, such as to establish the number of times the portal has been accessed on a particular day.

This data is treated as strictly confidential and is not shared outside the Migros Group or made available to other third parties, unless this is required under the applicable laws and specifically requested by the responsible law enforcement authority.

**Collection of statistical data**
